## Live Market Webinars-

In our endeavour to ensure that your learning is as application focused as possible, we have designed a variety of live market webinars to bridge the gap from the textbook and build your confidence to independently take trades.

Via the following webinars, we aim to build your knowledge for a range of scenarios -

### Sunday Webinars

given the global nature of Nifty / Bank Nifty, taking direction and analysing the major global indices is key for a trader. These sessions are conducted once every two weeks, allowing you to take direction and prepare for the coming week.

### Live Trading Labs

conducted on Tuesdays & Thursdays, as the name suggests, it's all about hand-holding and ensuring you're best prepared to trade independently. Topics covered include-

- Current Market Analysis of Nifty, Nifty Bank, Stock – Future & Options
- Real-life example of a script showing
- Where to Buy. Where to Go Short
- How to set target & stop loss
- Trade Plan
- Option Strategies
- Understating The Risk
- Combining Technical & Options for trade setup

# Trading & Analytics Platform

As a part of the course, and in order to aid your learning experience, we have developed a comprehensive Trading & Analytics platform, EmTrade. This platform is provided as part of the course.

## Some key features include-

- Intraday Strategies
- Swing / Positional Strategies
- Real-Time Data
- Extensive Oscillators Library
- Options Strategies
- Extensive Company Financials
- Global Indices
